

# RAMPING UP REPRO™

## ABOUT RAMPING UP REPRO™

RAMPing Up Repro (RUR) is a hands-on workshop focused on improving ram performance and working longevity in commercial sheep enterprises.

The workshop is designed increase the skill of producers across the key components of ram performance and impacts on overall breeding enterprise performance, including; anatomy, physiology, spermatogenesis, metabolic demands, health, disease & biosecurity and the financial impact of the ram team.

Each participant is guided through a thorough pre-joining ram inspection by an accredited workshop deliverer and given the opportunity to increase their practical skills to undertake this in their own operation. This workshop is designed to give attendees the confidence to incorporate these skills into their own routine management, thus improving the performance of their rams.

## KEY THEMES OF RUR

1. Identification of anatomical structures and knowledge of physiology directly impacting on the ability of the ram to serve and perform
2. The ability to perform a thorough pre-joining ram inspection, regarding critical structures and timing
3. The principles and skill of condition scoring and its impact on ram team management
4. A sound understanding of the animal health, disease and biosecurity considerations that need to be considered when managing a ram or ram team for a successful joining

## WHAT YOU NEED TO KNOW ABOUT RPP

- single day workshop (9:00am - 2:30pm)
- conducted through AWI's State Grower Networks
- 15 - 25 participants per workshop
- fully catered
- \$75 per person
- delivered by an accredited deliverer

## ATTENDEES RECEIVE

- full set of workshop notes
- checklist for use in their own operation
- scrotal measuring tape
- information on pathways for future learning

## WHEN AND WHERE

Workshops are run on a demand basis through AWI's State Grower Networks across Australia. To see upcoming workshops in your region, go to:
