

## NEW SOUTH WALES

This publication provides woolgrowers in NSW with some of the results of AWI investment in **on-farm R&D and extension** that are benefiting woolgrowers in the state.  
It also provides **contact information** for NSW and ACT woolgrowers who want to get involved.

### ABOUT AWI

Australian Wool Innovation (AWI) is a not-for-profit enterprise that conducts **research and development (R&D)** and **marketing** on behalf of Australian woolgrowers. AWI works along the worldwide supply chain for Australian wool – from woolgrowers to brands and retailers.

#### Research and development (R&D)

AWI invests in both on-farm R&D and off-farm R&D. This publication highlights some **on-farm R&D and extension** investments that are benefiting NSW and ACT woolgrowers.

#### Marketing

Through its extensive networks spanning the international textile and fashion industries, AWI and its marketing arm, The Woolmark Company, highlight the premium, natural qualities of Australian wool to support global demand for the fibre – for the benefit of all Australian woolgrowers.

### DO YOU WANT TO SPEAK TO SOMEONE FROM AWI WHO IS LOCAL?

While you can always contact AWI staff in the AWI Sydney office about an issue related to AWI, if you would prefer to contact someone more local, you are welcome to contact the AWI Industry Relations Officer, NSW.

**AWI Industry Relations Officer, NSW:**  
**Kristen Frost**  
**0427 393 601**  
**kristen.frost@wool.com**

Kristen is based in Crookwell and is also a woolgrower.

**AWI Extension NSW** provides a source of relevant, timely and technically sound information to more than 5,500 members via a range of methods of delivery – workshops, webinars, newsletters, social media and a podcast. All NSW and ACT growers are encouraged to get involved.

**Project Manager: Megan Rogers**  
**0427 459 891**  
**megan@awiextensionnsw.com**  
**www.awiextensionnsw.com**  
Facebook: @awiextensionnsw  
X (formerly Twitter): @awiextensionnsw

### NSW WOOL INDUSTRY

The NSW industry accounts for more than a third of Australian wool production.

#### SHEEP NUMBERS SHORN

million	NSW	Vic	WA	SA	Tas	Qld	Total

### AWI CONSULTATION WITH WOOLGROWER REPRESENTATIVE BODIES

AWI formally consults with woolgrower representative groups about the industry's key R&D and marketing priorities, through the AWI Woolgrower Industry Consultation Panel (WICP) and its Woolgrower Consultation Group (WCG).

Woolgrowers wanting to provide feedback to AWI through the WICP or WCG are encouraged to contact their member organisation. As well as national member organisations, the state-based and regional member organisations in NSW are:

- [Mallee Sustainable Farming Group](#)
  - [MerinoLink](#)
  - [Monaro Farming Systems](#)
  - [NSW Farmers Association](#)
  - [NSW Stud Merino Breeders' Association](#)
- ➡ [www.wool.com/consultation](http://www.wool.com/consultation)

# NEW SOUTH WALES HIGHLIGHTS

## WOOL HARVESTING

AWI-sponsored shearing and wool handling workshop at **Gulgarnambone** in the central west of NSW.

The AWI modular sheep delivery unit on display at the Falkiner Memorial Field Station at **Conargo** in NSW.

### SHEARER AND WOOL HANDLER TRAINING

#### In-shed training

AWI regularly funds and supports hands-on, practical, in-shed training in NSW for shearers and wool handlers to attract and retain new workers, as well as increase workers' productivity, skills and professionalism. For upcoming courses, keep an eye on the Facebook channel of @australianwoolinnovation.

→ To arrange training in your area, contact [craig.french@wool.com](mailto:craig.french@wool.com)

#### NSW wool harvesting ambassadors

These young professionals are promoting the industry at workshops, shearing competitions and in the media: Tess Woods (shearer, Parkes), Will Maguire (shearer, Leeton) and Charlie Baker (wool handler, Armidale).

#### BIOLOGICAL WOOL HARVESTING

AWI is funding promising research into a new opportunity for biological harvesting of wool that generates a weakened zone at the base of the wool fibre but, importantly, enables the fleece to remain on the sheep without a net until the wool can be mechanically removed. AWI is also investing in the development of a way to harvest the weakened wool via a device that applies a force to separate the wool from the body of the sheep.

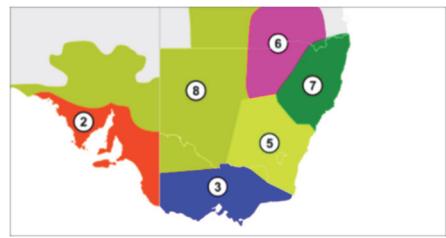

→ [www.wool.com/wool-harvesting-innovation](http://www.wool.com/wool-harvesting-innovation)

#### AWI SHEEP DELIVERY MODULE

The AWI sheep delivery units provide a system that delivers sheep directly to the shearer, eliminating the time and energy that shearers spend on the catch and drag and minimises the chance of injury to the shearer. The design focuses on a 'modular' concept in which portable singular shearing stands can be joined together. There are several companies manufacturing a sheep delivery system based on the AWI designs including, in NSW, ProWay and Stockpro.

→ [www.wool.com/sheep-delivery](http://www.wool.com/sheep-delivery)

## SHEEP HEALTH

WormBoss worm control programs are available for non-seasonal, summer rainfall and pastoral areas of NSW.

ParaBoss is a suite of three web-based products – FlyBoss, WormBoss and LiceBoss – containing detailed management information to help sheep producers manage risks.

→ [www.paraboss.com.au](http://www.paraboss.com.au)

- **Worm Control Programs** for the summer rainfall, non-seasonal rainfall and pastoral regions of NSW are available on WormBoss.

→ [www.wormboss.com.au](http://www.wormboss.com.au)

- **Flystrike Decision Support Tool** on FlyBoss is tailored for your location within NSW.

→ [www.flyboss.com.au/tools](http://www.flyboss.com.au/tools)

#### AWI'S FLYSTRIKE EXTENSION PROGRAM

The Program supports woolgrowers to improve the lifetime welfare of their sheep, reduce their reliance on mulesing and crutching, optimise chemical use and increase whole farm profitability:

- **It's Fly Time!™** Practical, just-in-time information in the lead up to, and during, high-risk flystrike periods.
- **DemystiFly™** Practical information about managing chemical resistance in blowflies.
- **SimpliFly™** A one-day workshop to develop a property-specific, strategic flystrike management plan.
- **ClassiFly™** A one-day workshop to increase understanding and skills in breeding for flystrike resistance.
- **StrateFly™** A one-day workshop to develop a property-specific strategy for moving to a non-mulesed enterprise.
- **AmpliFly™** One-on-one coaching and support from an accredited advisor to assist you prevent and control flystrike.

→ [www.wool.com/flystrikeresources](http://www.wool.com/flystrikeresources)

#### SHEARING SHED DESIGN

##### AWI Shearing Shed Design

This is a result of AWI and a working group of woolgrowers and shed staff in 2019 designing a shearing shed which addresses worker safety and animal welfare considerations, while also achieving improved shed efficiency and good wool quality outcomes. Dozens of sheds have now been built across the country using the AWI design.

##### Shed design considerations guide

This 32-page guide was produced by AWI to provide woolgrowers with an outline of considerations when renovating or designing shearing sheds. It covers (1) in-shed pens, (2) shearing board, (3) wool room, (4) general design and construction, and (5) equipment.

→ [www.wool.com/sheddesign](http://www.wool.com/sheddesign)

#### NSW SHEARING COMPETITIONS

AWI provides support to local shearing competitions in NSW affiliated with Sports Shear Australia. The aim of the support is to promote excellence in the wool harvesting industry, encourage young people to join the industry, and encourage continued development of techniques in shearing and wool handling.

→ [www.wool.com/competitionsupport](http://www.wool.com/competitionsupport)

# NEW SOUTH WALES HIGHLIGHTS

## GENETICS

Crowds at a Macquarie Merino Lifetime Productivity field day at **Trangie** in the Macquarie Valley of NSW.

This 10-year project completed data collection in July 2024 with the aim of improving early in life predictions of actual lifetime productivity and profitability. The project has now moved to the formal analysis stage. The project has been run at five sire evaluation sites located across Australia in diverse climates with genetically diverse ewe bases including three in NSW: MerinoLink (Temora, Moses & Son) Macquarie (Trangie, NSW DPI) New England (Armidale, CSIRO).   
→ [www.wool.com/MLP](http://www.wool.com/MLP)

### MERINO SUPERIOR SIRES

This initiative identifies the genetic merit of industry AI sires by evaluating the performance of their progeny for a broad range of visual and objective traits. There are 9 sites across Australia including 3 in NSW: MerinoLink (Bathurst, Boorowa), Macquarie (Trangie) and New England (Armidale); plus a Dohne trial at Urana.   
→ [www.merinosuperiorsires.com.au](http://www.merinosuperiorsires.com.au)

### SHEEP SELECTION TOOLS BOOKLET

This 20-page booklet summarises a wide range of industry tools available to help woolgrowers achieve their breeding goals. Topics include shows, wether trials, flock ewe competitions, Merino Sire Evaluation, MERINOSELECT, Visual Sheep Scores, RamSelect, workshops, sheep classers and saleyards.   
→ [www.wool.com/sheepselection](http://www.wool.com/sheepselection)

### VISUAL SHEEP SCORES

This guide provides the Australian sheep industry with a common language for the visual description, recording and classing of all breeds of sheep according to important visual traits.

→ [www.wool.com/vss-2024](http://www.wool.com/vss-2024)

## REPRODUCTION

A *Winning with Weaners* workshop held at **Mudgee** teaching woolgrowers how to get the most out of their weaners.

### LIFETIME EWE MANAGEMENT

This course provides hands-on, on-farm training over a year for small groups of producers in the management and nutrition of breeding ewes to maximise reproduction rates and lamb and ewe survival. The average participant increases their whole-farm stocking rate by 9.3%, marking and weaning rates by 7%, and reduces ewe mortality by 25%. Nationally, more than 5,000 producers have undertaken the course. There are 17 LTEM trainers across NSW.

→ [www.wool.com/LTEM](http://www.wool.com/LTEM)

## ONE-DAY WORKSHOPS

### Picking Performer Ewes

This workshop available in NSW for woolgrowers with commercial self-replacing Merino flocks places importance on the total lifetime productivity potential of the ewes.

### RAMPing Up Repro

This workshop available in NSW is designed to give woolgrowers the skills to improve ram health, performance and longevity in their sheep breeding enterprises.

### Winning With Weaners

This workshop available in NSW is designed to give woolgrowers the skills to lift the lifetime performance of their young Merino sheep and achieve 95% weaner survival to one year of age.

→ [www.wool.com/workshops](http://www.wool.com/workshops)

### PREGANCY SCANNING HAS VALUE

New research shows that pregnancy scanning has a high return on expenditure for sheep producers, with scanning for multiples increasing potential profit by an average of \$5.55/ewe scanned across 32 scenarios examined for summer and winter rainfall areas. Scanning for multiples provided twice the value of scanning for only pregnancy status.

## SUSTAINABILITY

AWI provides a range of drought planning and management resources for **NSW** woolgrowers.

### DROUGHT RESOURCES

For woolgrowers going into, enduring or recovering from drought, AWI provides a range of drought planning and management resources, plus links to useful external resources, including: Managing Sheep in Droughtlots; Stock water – a Limited Resource; Lifetime Wool Feed Budget Tables; Feeding and Managing Sheep in Dry Times; Managing Fodder Prices for Droughts; Which Sheep do I Keep?

→ [www.wool.com/droughtresources](http://www.wool.com/droughtresources)

### FARMING FOR THE FUTURE

In response to market demand for evidence that woolgrowers are responsibly managing the environment on their farms, AWI is co-investing in the Farming for the Future program to demonstrate to woolgrowers the business case for improving their farms' natural capital (environmental assets such as soil, water and vegetation).

### NATIONAL SHEEP METHANE PROGRAM

This Program is a collaborative and coordinated effort between AWI and departments of primary industries and universities in the main wool-producing states to implement practical and safe ways for producers to reduce methane emissions from Australian sheep grazing systems.

### FEEDBASE OPTIONS

Choosing the right pasture mix for your enterprise and location is essential, particularly in a more variable climate. AWI invests in pasture breeding, selection and commercialisation to make available to woolgrowers a suite of high-performance feedbase options that support profitable, sustainable wool production. Information and resources cover legumes, grasses, shrubs, stubbles, Feed On Offer, weed and pest management, and grazing management.

→ [www.wool.com/feedbase](http://www.wool.com/feedbase)

# NEW SOUTH WALES HIGHLIGHTS

## PEST ANIMALS

The FeralScan™ platform comprises 14 species-based websites and a user-friendly phone app.

### NATIONAL WILD DOG COORDINATOR

AWI co-funds the National Wild Dog Management Coordinator position which has led to significant progress being achieved in community-led wild dog management programs across NSW.

➡ [www.wilddogplan.org.au](http://www.wilddogplan.org.au)

### FERALSCAN™ DIGITAL TOOL

FeralScan™ is a free, purpose-built, digital resource that NSW woolgrowers can use to record and access information about the population of pest animals (such as wild dogs, foxes, rabbits and feral pigs) and their management in a local area.

➡ [www.feralscan.org.au](http://www.feralscan.org.au)

### WILD DOG EXCLUSION FENCING

Information and photos of successful exclusion fences are included in AWI's free 36-page 'Wild dog exclusion fencing: a practical guide for woolgrowers'. AWI also makes available the 14-page Kondinin Group Research Report 'Exclusion Fencing, Fighting Ferals'.

➡ [www.wool.com/exclusionfencing](http://www.wool.com/exclusionfencing)

### RABBIT BIOCONTROL OPTIMISATION

Currently, there are four strains of the rabbit calicivirus (RHDV) present in Australian rabbit populations, two of which are exotic. RHDV2 has become and remains the dominant strain in the landscape and continues to suppress wild populations by an average of 64% compared to levels before its arrival. Although seroprevalence of the non-pathogenic, endemic RCV-A1 was initially depressed by competition with RHDV2, this virus now shows stronger evidence of coexistence with RHDV2.

➡ [www.wool.com/rabbits](http://www.wool.com/rabbits)

## THE NEXT GEN

Young people learning from industry leaders at the Peter Westblade Wyvern Training Weekend at Carrathool.

### PRACTICAL HANDS-ON TRAINING

#### School Merino Wether Challenge

Run in conjunction with the NSW Stud Merino Breeders' Association, the School Merino Wether Challenge provides students with a practical, hands-on experience covering a broad range of sheep and wool production skills. Each school team looks after several wethers for about six months and shows them during a competition later in the year. 70 NSW schools are enrolled in the 2024 competition.

#### Other examples of hands-on training

Other initiatives supported by AWI available to young people in NSW are:

- Hay Inc Rural Education Program
- Peter Westblade Wyvern Training Weekend
- Southern Tablelands Flock Ewe Championship
- Merino Fleece and Merino Sheep Young Judges Championships.

### BREEDING LEADERSHIP

NSW participants in AWI's five-day Breeding Leadership professional development course in February 2024 were: Austin Grace, Murringo; Jack Kelly, Murrawombie; Sarah Maher, Wagga Wagga; Jesse Moody, Tenterfield; Christine Plummer, Buronga; George Shannon, Bookham; Britt Stein, Yenda; Joe Walden, Cootamundra; and Nick Westcott, Peak Hill.

➡ [www.wool.com/breedingleadership](http://www.wool.com/breedingleadership)

### MAKING MORE FROM SHEEP

This is a best practice package of information and tools for sheep producers. Ideal for young people in NSW starting out in the wool industry, the 12 modules contain the 'must dos' of managing a successful wool enterprise.

➡ [www.makingmorefromsheep.com.au](http://www.makingmorefromsheep.com.au)

## INFORMATION

Beyond the Bale, AWI's quarterly magazine for wool levy payers, is available to woolgrowers across NSW.

NSW woolgrowers can keep up to date via regular communications from AWI:

- **Beyond the Bale** quarterly magazine  
➡ [www.wool.com/btb](http://www.wool.com/btb)
- **Woolgrower monthly e-newsletter**  
➡ [www.wool.com/subscribe](http://www.wool.com/subscribe)
- **The Yarn** podcast  
➡ [www.wool.com/podcast](http://www.wool.com/podcast)
- **Woolgrower representative groups**  
National, State and regional (see front page)
- **wool.com** website
- **Social media**  
Facebook: @AustralianWoolInnovation  
X (formerly Twitter): @woolinnovation  
Instagram: @australianwool
- **Events** AWI attends many sheep and wool field days and events in NSW
- **AWI HQ** 02 8295 3100 [info@wool.com](mailto:info@wool.com)

## MARKET INTEL

- **Daily Wool Market Reports** are available via SMS to NSW woolgrowers' mobile phones.
- **Weekly Wool Market Reports and Prices** are available each Friday via SMS, email and at [wool.com](http://www.wool.com).
- **Monthly Market Intelligence Reports** are available as part of AWI's monthly e-newsletter for woolgrowers.
- **Australian Wool Production Forecasting Committee Reports** are available three times each year.
- **AWI and MLA Sheep Producer Intentions Survey** are conducted three times each year.

➡ [www.wool.com/marketintelligence](http://www.wool.com/marketintelligence)

AWI is grateful for its funding, which is primarily provided by (1) Australian woolgrowers through a wool levy, and (2) the Australian Government which provides a matching contribution for eligible R&D activities.
