Trainee Name		Date:	
---------------------	--	--------------	--

It is important to keep wool from different types of sheep separate as it has different uses in processing. The photos in the table below are of common breeds used in the wool industry in Australia.

- For each breed:
1. Name the breed
 2. Explain why the wool needs to be kept separate from other lines.

	Name of Breed	Reason for keeping wool separate from other lines
